One-Stop Source

By choosing YourCompany, Inc. for all your security and entertainment needs, you will experience the pleasure of working with a single competent organization instead of having the hassle and aggravation from trying to coordinate multiple companies to integrate your electronic systems into a working design.

Why choose YourCompany?

An integrated system is characterized by combining segments from different systems to make them work together. With over 10 years in the business of systems integration, YourCompany is the solution to a home designed for lifestyles of today and prepared for lifestyles of tomorrow.

Since January 2000, YourCompany has been a leader in home integration specializing in the installation of structured wiring, distributed audio, security/fire, home theater, HVAC controls, home automation, and more — staying on the cutting edge of technology while meeting the ever changing needs of our customers.

Our goal is to provide you with the service, the entertainment, the technology, and most importantly, the controls to allow you to easily enjoy your living environment to the utmost.

We have a rare combination of engineers, systems designers and installers that can provide creative designs, systems integration and flawless control of your home or business.

All installations are performed by professionally trained and certified installers. We recognize the special care and attention to detail needed when building your dream home. Expect the best, call us today!

Your Company is able to protect your most valuable assets, at home and at work, by equipping your home or office with a state-of-the-art security system. Our security systems are designed to provide enhanced comfort, safety and convenience.

All installations are performed by qualified personnel who are fully trained in both fire and security.

Not only are we capable of designing and installing sophisticated systems, we also offer low monthly monitoring services starting at an incredibly low rate of $24.95 with a three-year agreement.

Again, there is no need to juggle multiple contractors during the design and building phase. Security and fire systems are just another area we specialize in, allowing you to rest easily knowing your family and possessions are safe and secure.

System Monitoring
Starting at $24.95 / mo.

Enhance your security by having the system monitored 24/7 by our monitoring station. Take advantage of our low monthly rates and sign up monitoring through us.

Remote Control your Home!
Ask about the option of programming a wireless key fob to give you the convenience of arming and disarming the security system.

Sample Package
(1) Twenty-four zone alarm panel
• (2) Surface mounted LCD keypads
• (6) Door contacts
• (20) Window contacts
• (4) Glass break detectors
• (6) Smoke detectors
• (2) Heat detectors
• (4) Pet-immune motion detectors
• (1) Addressable thermostat
• (3) Sirens — (1) external and (2) internal
• (1) Line seizure module

Security / Fire TIP
A majority of home insurance providers will offer a discount on their premium for having a security system installed and monitored. Be sure to take advantage of this added benefit.

Look and Sound Like a Pro
Each system spread is professionally designed and written by our staff of graphic designers and systems engineers each with substantial industry experience.

Have confidence knowing that your brochures will be accurate and informative. Scheming from years in the field, our staff understands your line of work and is here to make you look and sound like an industry professional.

Over the last several years, the demand has grown rapidly for multi-room audio in homes and businesses. Listen to different music in different rooms at different volumes all from one, easy to use system.

YourCompany is well equipped to offer multi-room audio packages designed to deliver crystal-clear sound throughout your entire home or office — at an exceptional value.

Our systems allow listeners to spend more time relaxing, and less time hassling with complicated stereo systems. Controlling what plays over which speakers can be controlled from one user-friendly interface.

Now have jazz playing in the kitchen, classical in the dining room, easy listening on the back porch and oldies in the pool area. Your overall living experience can be enhanced by filling your home or office with your favorite tunes.

Speakers that rock!

Often times, the outdoor living area is a source of entertainment and a chosen location for audio. To fit with the scenery, choose from various landscape speakers.

Plenty of Options!

Our distributed audio packages range from simple single source / single zone systems to fully featured 12 source / 12+ zone systems. Also available is a variety of in-ceiling and in-wall speakers choices depending on level of desired audio quality.

Sample Package

4-Source/4-Zones/4-Rooms

- (1) Amplifier — distributes the audio from each source to each room
- (4) pairs of in-ceiling or wall speakers
- (4) in-wall electronic volume controls
- Complete installation of all wiring and equipment
- Full system testing and calibration
- 1/2 Hour equipment training

Distributed Audio Tip

The larger the room doesn't always mean the larger the speaker. Take a look at the brand and quality of the speaker before size becomes an issue.

Experience the thrill of owning a state-of-the-art home theater — at an affordable price. Never before has the concept of a home theater been so real and achievable.

The products that make up a home theater are experiencing price wars which has dramatically reduced the overall cost of our custom home theater packages, greatly benefiting our most valued customers.

We have designed a variety of different theater packages for almost every budget so even the entertainment enthusiasts can experience the thrill of a cutting-edge theater system.

Our top-of-the-line theater packages are designed for consumers seeking the ultimate dedicated home theater room experience. Our engineers design, install, and program each theater system, making them capable of delivering a truly high quality viewing experience.

**Sample Package**

- (1) DLP HDTV projector
- (1) Audio/Video Receiver with 5.1 surround sound
- (1) Blu-Ray DVD Player
- (1) Universal remote control
- (1) Surge protector
- (1) Theater connection plate
- (1) Complete 5.1 surround sound in-ceiling or bookshelf speaker
- (1) 110" high contrast screen
- 1/2 hour of equipment training

**Home Theater Tip**

Preparation is key. Consider acoustics, lighting, dimensions, interoperability of equipment, etc. Then work these into the aesthetics of your beloved home theater. It can be a challenge but one that delivers a result well worth the extra time and effort.

**So many speaker options!**

From in-wall surrounds and subs to state-of-the-art shelf mounted to the sleek free standing, there are many different choices of theater speakers. Discuss your options with one of our salesmen to discover the best solution for your home theater.
Home Automation

We have created state-of-the-art home and business automation packages to place you on the cutting edge of systems control. We offer a variety of touch-screen control systems. They allow unprecedented control over each subsystem. The design of the system allows you to manage every one of your systems from a user-friendly interface that displays important information.

- Multi-room climate control
- Security
- Multi-room audio
- Lighting
- Landscape irrigation
- Home theater

Also, our touch panels display weather forecasts and conditions as well as other critical information.

Control Everything with “One Touch”

Installing an automation system can provide your home or business with the proper control over all your subsystems by combining them into one, easy-to-use interface.

Features Include:
- Centralized control
- Access your system from any computer in the world over the internet
- Activate any of your systems at anytime
- Easier subsystems control
- Enhanced convenience
- Reduce manual tasks
- Reduce energy bill

Customers Appreciate a Breakdown

The “Sample Package” section offers an example of what a typical system will include. Pre-written sample systems are provided. As with the TIP section, you are able edit and make your own sample package. Go to Relidy.com to learn more!
ADDITIONAL SERVICES

**STRUCTURED WIRING**
When customers begin looking for a fully integrated home or business that includes a variety of subsystems, the process starts by designing a structured wiring infrastructure that allows each subsystem to interoperate.

Our structured wiring packages are designed to bring together each subsystem into one fully automated system—while accommodating upgrades.

**MEDIA ROOMS**
HDMI, 1080p, Plasma, LCD, 5.1 or 7.1, etc. Are these terms you should be familiar with? Not necessarily... but they are still each very important to the setup of today's entertainment rooms.

That's exactly why we are here to help. With technicians educated on the very latest in audio and video technology, YourCompany is well equipped to meet your Media Room needs.

**LIGHTING CONTROL**
We offer state-of-the-art lighting control systems specifically for homes and businesses. Lighting control systems provide energy savings and peace of mind by allowing you to control a wide variety of lights using intelligent switch communication.

Our advanced lighting control system offers increased security by allowing you to setting up time-based schedules.

**CENTRAL VACUUM**
Since their conception in early 1960's, central vacuum systems have "sucked" plenty of attention toward a revolution to the vacuuming process. We install the most up-to-date vacuum systems that feature cutting-edge noise reduction technology, high-tech "smart" options, increased convenience, better performance, improved indoor air quality, and longer motor life.

**CCTV CAMERAS**
CCTV or Closed Circuit Television, is a system that allows the owner to both monitor as well as record activity on his or her property.

If you're curious about suspicious activity or would like the convenience and security of viewing who is at your front door, then a CCTV camera system is what you need.

Are you looking for something special, something different? We pride ourselves in our experience and capabilities, so please ask... there's a good chance we can do it.

Pick & Choose Mini's
Include additional products & services without purchasing a full spread.
Browse through a long list of available product & service "mini packages".
